EXPERTISE

Angular v20+

Tailwind CSS

Chart.js

React.js / Hooks

TypeScript / ES6+

Redux Toolkit

NgRx / RxJS

Material UI

Jest / Testing Lib

Azure DevOps

Git / CI/CD

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS

MANGALAYATAN UNIVERSITY, 2026

DIPLOMA MECHANICAL

KLE'S POLYTECHNIC, 2016

SSLC

GOVT HIGH SCHOOL, 2013

PROFESSIONAL SUMMARY

Strategic and highly accomplished Sr. Front-End UI/Web Developer with **7 years** of experience in architecting high-performance, enterprise-grade Single Page Applications (SPA). Expert in modern **Angular (v4–v20+)** and **React.js** ecosystems. Specialist in developing complex analytics dashboards using **Chart.js** and **Tailwind CSS**. Proven track record of leading technical migrations, optimizing core web vitals by 40%, and mentoring high-performing engineering teams.

EXPERIENCE

Sr. Software Developer (Angular 20+)

MAY 2026 - PRESENT

Tata Medical & Diagnostist Private Limited

- Leading front-end architectural design and building scalable medical diagnostic applications and analytics dashboards.
- Leveraging modern **Angular** framework features, state management, and utility-first styling to deliver high-performance user interfaces.

Sr. Software Developer (Angular 20+)

FEB 2025 - APRIL 2026

BOP Consultant Private

- Leading the architectural design and development of advanced, high-performance healthcare analytics dashboards using **Angular v20+** and **Signals** to ensure ultra-responsive state management.
- Architecting a highly responsive and utility-first UI design system using **Tailwind CSS**, significantly improving cross-platform design consistency.
- Engineered complex, data-intensive visualizations with **Chart.js** to provide real-time healthcare metrics and actionable patient data analytics.
- Directing a team of developers on modern **RxJS** patterns while streamlining CI/CD workflows for rapid feature delivery.

Sr. Software Developer (Angular 15)

MAY 2024 - JAN 2025

R Systems International

- Built real-time real estate dashboards using **Chart.js** and Angular 15, providing dynamic property market trend visualization.
- Engineered robust state persistence using **NgRx Store**, decreasing redundant backend API calls by 40%.
- Managed complex CI/CD pipelines within **Azure DevOps** for secure, automated production deployments.

Sr. Software Developer (React.js)

AUG 2022 - MAY 2024

LTIMindtree Private Limited

- Architected highly responsive BFSI retailer portals using **React Functional Components** and **Custom Hooks** for code reusability.
- Implemented robust state management and asynchronous data fetching using **Redux Toolkit** (RTK Query) for intricate retailer onboarding flows.
- Achieved 85% unit test coverage using **Jest** and **React Testing Library** to ensure platform stability.

● Sr. Software Developer (React.js)

JAN 2020 - AUG 2022

IQGateway Private Limited

- Delivered scalable React SPAs for Job Portals and Healthcare using **Material UI** and **Redux** for global state.
- Developed custom **Axios Interceptors** to handle centralized authentication and global error handling strategies.

● Software Engineer (Angular 4/6)

2018 - 2019

BizRuntime IT Services

- Developed SaaS modules for Oil & Gas clients, implementing real-time data streaming via **WebSockets**.
- Standardized front-end development using **SCSS mixins**, enabling rapid white-labeling for diverse global vendors.
